CRYSTALIZER

CRYSTALIZED POLISH

It is used for polishing calcium carbonate-based floors by crystallization. Easy to apply. It provides hardness and durability to the floor. It protects to the contamination, facilitates the daily cleaning. It is resistant to slipping. It ensures resistance against mechanical damage. It is odourless.

pH (% 1)	2,5-3,5
Dossage	Product is used directly.
Packing	5L/5,45 kg PE Jerrycan
Product Code	32000106 (4x5 L Parcel)

POWER JEL

CHLORINE-BASED HYGIENIC SURFACE CLEANER

It is an effective surface cleaner that can be used on all water-resistant hard surfaces. It cleans, polishes and sanitizes all surfaces. It contains bleach.

pH (% 1)	12.00-13.00
Dossage	5ml/1L water
Packing	5L/5.4kg PE Jerrycan
Product Code	41003440(4*5LParcel)

TEXTILE HYGIENE PRODUCTS

The importance of textile hygiene in terms of human health cannot be discussed. Laundry is one of the most tangible indicators that reflect the hygiene standards of enterprises. Nilco develops textile hygiene product with expert R&D staffs and produces as user and eco-friendly with high technology. With textile hygiene portfolio, Nilco offers effective products and systems suitable for the washing conditions and dirt type of all businesses in the sector.

UPGRADE YOUR TEXTILE HYGIENE STANDARD WITH NILCO.

Nilco ensures that the laundry process is kept under control and that the high performance is continuous with innovative, advanced liquid detergent and automatic dosage systems.

Furthermore, direct contact of staffs with detergent is prevented and washing costs are minimized with error-free dosing.

A perfect working environment is provided by training the cleaning staff about the products and systems with applied and theoretical trainings. With the support given by after-sales visits, as Nilco, our goal is to ensure sustainable customer satisfaction.

We also invite you to experience excellent textile hygiene with Nilco products...

MAIN WASHING DETERGENTS

SUPER MATIC

POWDER DETERGENT WITH TAED AND WHITENER

With the help of active substances and whiteners, it ensures excellent cleaning against oil, protein and starch-based intensive dirt. Thanks to its formula with TAED, it ensures effective cleaning even if in lowest temperatures and ensures energy saving. It does not harden or wear the laundry.

pH (%)	10-11
Dossage	10-25 g / 1 kg dry laundry (0-20 dH water hardness)
Packing	20 kg PE Bag
Product Code	32000053 (20 kg PE Bag)

MATIC

MAIN WASHING DETERGENT WITH WHITENER

It is used for washing of white laundries. It does not wear out the laundries and is economical since the active substances in its content are used at the optimum rate. It is suitable for environmental health and easily decompose in the nature.

pH (%)	7-11
Dossage	10-25 g / 1 kg dry laundry (0-20 dH water hardness)
Packing	20 kg PE Bag
Product Code	32000051 (20 kg PE Bag)

MATIC CLASSIC

MAIN WASHING DETERGENT WITHOUT WHITENER

With the help of active substances and enzyems, it ensures excellent cleaning against oil, protein and starch-based intensive dirt. It is safely used for colourful laundries. It does not harden and wear out the laundries.

pH (%)	10-11
Dossage	10-25 g / 1 kg dry laundry (For 0-20 Dh water hardness)
Packing	20 kg PE Bag
Product Code	32002332 (20 kg PE Bag)

HEAVY

STRONG DIRT, BLOOD AND OIL REMOVER

It contains water hardness remover, alkalinity providing, corrosion substances in its formula. It is supplementary washing substance. The active substances in its content decompose biologically in the nature.

pH (%)	11-13
Dossage	3-8 g / 1 kg dry laundry
Packing	10 kg PE Bag
Product Code	32000063 (10 kg PE Bag)

CLORENE

WHITENER AND STAIN REMOVER WITH CHLORINE

Thanks to organic active chlorine compound in its content, it has excellent stain removal properties at low temperatures.

pH (%)	9-11
Dossage	5-10 g / 1 kg dry laundry (40°C)
Packing	10 kg PE Bag
Product Code	32000058 (10 kg PE Bag)

OXY

WHITENER AND STAIN REMOVER WITH OXYGEN

It has been formulated for all kinds of heavy blood and dirt stains. Thanks to active oxygen in its compound, it ensures hassle-free whitening and stain removal.

pH (%)	10,5-11,5
Dossage	2-10 g / 1 kg dry laundry
Packing	10 kg PE Bag
Product Code	32000057 (10 kg PE Bag)

BLEACH

CHLORINE BLEACH

Its formulation contains chlorine-based bleach. It ensures that laundry is white, stain-free, and hygienic. When used as a disinfectant in general cleaning, it provides maximum hygiene.

pH (%)	12.00-14.00
Dossage	2-8 g / 1 kg of dry laundry
Packing	5L/5.4kg PE Jerrycan 20L/21.6kg PE Jerrycan
Product Code	41003959(4*5L Parcel) 41003808(20 L PE Jerrycan)

SOFT WHITE

LAUNDRY SOFTENER

Thanks to its special formula, it prevents wearing out of clothing fibres as a result of continuous washing and rinsing. As it prevents static electric, it makes ironing easier. It prevents the curtains from holding dust and thus getting dirty quickly. It softens the laundries and leaves a pleasant scent.

pH	2,5-3,5
Dossage	5-10 ml / 1 kg dry laundry
Packing	20 L/19,6 kg PE Jerrycan 200 L/200 kg PE Barrel
Product Code	32001820 (20 L PE Jerrycan) 32001830 (200 L PE Barrel)

LS 300

CONCENTRATED CHLORINE-ENHANCED BLEACH AND HYGIENE PRODUCT

LS 300 is a sodium hypochlorite-based bleaching and hygiene product used for white-colored textiles in all types of industrial washing machines. It is effective under all water conditions.

pH	12-14
Dossage	3-15 ml / 1 kg Laundry
Packing	20 L/24 kg PE Drum
Product Code	41003806 (20 L PE Drum)

TEXTILE HYGIENE PRODUCTS

SOL

SUPPLEMENTARY OIL AND DIRT REMOVER WASHING PRODUCT

It contains surface active substances and organic solvents as oil and dirt remover in its formula. Thanks to the high concentration of active substances in its structure, emulsifies even the most persistent dirt and oil molecules. It is not affected from water hardness, the effective cleaning is achieved in hard water.

pH	5,5-7,5
Dossage	1-6 ml / 1 kg dry laundry
Packing	5 L/4,95 kg PE Jerrycan 20 L/19,8 kg PE Jerrycan 200 L/198 kg PE Barrel
Product Code	32001843 (4x5 L Parcel) 32001844 (20 L PE Jerrycan) 32001845 (200 L PE Barrel)

LS 802

ALKALI SUPPLEMENTARY WASHING PRODUCT

It is powerful, heavy oil and dirt remover supplementary main washing product. It contains complexing agents, oil and dirt remover powerful alkaline substance, surface active substance. Its foam can be regulated. It is used with main washing product for cleaning of heavy oily and dirty kitchen laundries, excessive bloody, stained hospital laundries. It is safely used on the cotton and synthetic textiles. It is not suitable for sensitive textile.

pH (%)	12-13
Dossage	1-10 ml / 1 kg dry laundry
Packing	20 L/28,6 kg PE Jerrycan 200 L/286 kg PE Barrel
Product Code	32000069 (20 L PE Jerrycan) 32001108 (200 L PE Barrel)

LS N-POWER

MAIN WASHING DETERGENT

It is a concentrate liquid washing product developed in order to use with liquid dosage systems. The surface-active substances, soap, ion immobilizer, optical brightener, enzyme, preservative and perfume in its formula ensures stainless by dissolving in the water. It is suitable for white and colourful laundries. With its formula close to neutral, it ensures water and energy saving in the rinsing step.

pH	8,5-9,5
Dossage	7-12 ml / 1 kg dry laundry
Packing	20 L/20,8 kg PE Jerrycan 200 L/208 kg PE Barrel
Product Code	32001850 (20 L PE Jerrycan) 32001851 (200 L PE Barrel)

LS 406

MAIN WASHING DETERGENT

It is a concentrated liquid laundry detergent for use with liquid dosing systems. Its formulation contains complexing agents, corrosion inhibitors, degreasing alkalis, and surfactants. Suitable for white and colored, cotton and synthetic/cotton blend fibers. Not suitable for delicate textiles such as wool and silk. For heavily soiled and stained laundry, it is recommended to use it in combination with LS 802 alkaline auxiliary detergent and LS 600 bleach.

pH (%)	12.00-13.00
Dossage	5-10ml/1kg dry laundry
Packing	20L/23.4kg PE Jerrycan
Product Code	32001927 (20L PE Jerrycan)

LS 505

AID RINSE PRODUCT

It is an acidic product used to ensure thorough rinsing of laundry, especially after washing with strong alkaline products and normal rinsing. It can also be used with fabric softener. The acid it contains is suitable for all types of metals, including soft metals, and all types of textiles. It is effective in finishing the rinse in very soft water. It prevents yellowing that may occur due to alkaline residue.

pH (%)	2.00-3.00
Dosage	1-2g/1kg dry laundry
Packing	20L/20.5kg PE Jerrycan
Product Code	32001730(20 L PE Jerrycan)

LS 600

OXYGEN-BASED WHITENER PRODUCT

It is active oxygen-based whitener and supplementary washing product. It contains hydrogen peroxide, peroxide stabilizer and non-ionic active ingredient. It removes tea, coffee, wine, fruit-vegetable stains, etc. stains that can be whitened on laundry by oxidizing. It is safe for all kinds of textile. It does not damage to the colours. It makes the white cotton textile more whiter. It also increases the cleaning effect of the main washing agent. Active oxygen in its contain ensures that the laundry is hygienic.

pH (%)	3-4
Dosage	2-7 ml / 1 kg dry laundry
Packing	20 L/22,2 kg PE Jerrycan 200 L/222 kg PE Barrel
Product Code	32000061 (20 L PE Jerrycan) 32001112 (200 L PE Barrel)

LS 606

PAA-BASED HYGIENIC WHITENER PRODUCT

Nilco LS606 is a high performance hygienic auxiliary washing product used as a stain remover and whitener for washing of all kinds of colourful laundries except wool and nylon (polyamide) laundries. It is effective in the lower temperatures.

pH (%)	3-4
Dosage	2 ml / 1 L Water
Packing	20 L/22 kg PE Jerrycan 200 L/220 kg PE Barrel
Product Code	32001560 (20 L PE Jerrycan) 32001545 (200 L PE Barrel)

MEISTER 1

RUST REMOVER

It is effective in removing rust stains from all kinds of hard and soft surfaces such as textiles, stone, plastic, etc.

It can be safely used on all types of textiles made of natural, synthetic and blended fibers. Not suitable for leather and suede. Contains rust-dissolving substances.

pH (%)	3.00-4.00
Dosage	The product is used directly.
Application	Applied directly to textiles.
Packing	800ml/848g PE Bottle
Product Code	32001453(6*800mlParcel)

MEISTER 2

PAINT AND OIL REMOVER

It is effective in removing oil, paint, ink, cosmetic, etc. stains from textiles, carpets, and upholstery. It can be safely used on all types of textiles, including natural, synthetic, and blended fibers. It is not suitable for leather and suede. It contains oil and paint solvents, organic acids, and surfactants. The surfactants it contains are biodegradable.

pH (%)	2.00-3.00
Dosage	The product is used directly.
Application	Applied directly to textiles.
Packing	800ml/808g PE Bottle
Product Code	32001454(6*800mlParcel)

TEXTILE HYGIENE PRODUCTS

MEISTER 3

TANNIUM SOLVENT

It is effective in removing stains such as tea, coffee, wine, mustard, ketchup, fruit and vegetable stains, etc., from textiles, carpets and upholstery. It can be safely used on all types of textiles with natural, synthetic and blended fibers.

Not suitable for leather and suede. Contains dye and tannin dissolving solvents, organic acids and surfactants. The surfactants it contains are biodegradable.

pH (%I)	3.00-4.00
Dossage	The product is used directly.
Application	Applied directly to textiles.
Packing	800ml/854g PE Bottle
Product Code	32001455(6*800mlParcel)

BLEACH ULTRA

THICK CHLORINE LAUNDRY BLEACH

It is used as an auxiliary laundry detergent.

pH (%I)	12-14
Dossage	2-8 gr / 1 kg kuru çamaşır
Packing	5L/5.4kg PE Jerrycan
Product Code	41002832(4*5LParcel)
